OF

Direzione degli Armamenti Aeronautici e per
l'Aeronavigabilità

(Italy)

IN THE FIELD OF

Continuing Airworthiness Assurance

BY

Direction de la Sécurité Aérienne d'État

(France)

Date : 17/01/22

Signature :

Name : **Général Stéphane VIREM**
Director, DSAÉ

1. Recognition, in this case, is of an Authority by another Authority. To achieve the goal of regulating once and using the outcome many times, the recognition process guidelines detailed in EMAD R have been followed and confidence has been gained that DAAA's airworthiness assurance and regulatory approach is acceptable to DSAÉ.
2. DAAA's conduct of regulatory assurance is assessed as being at a standard by which the continuing airworthiness artefacts can be accepted by DSAÉ as described in The table here below.

Artefacts	Remarks
Approvals of maintenance or training organisations, and military aviation maintenance licences delivered by DAAA can be accepted by the DSAE.	Approvals and licensing based on AER(EP).P-145/147/66 only.
Audits and surveillance for the approvals of maintenance and training organisations may be conducted jointly.	Development of the process for conducting joint audits and surveillance is required.

3. This Recognition Certificate is valid until **October 2025**.
4. This Recognition Certificate will be reviewed for the first time at least 6 months before the end date of its validity unless any significant changes (Step 17 of EMAD R Edition 2.0 refers) to the Authorities occurs before that date.
5. Validity is based on the condition that DAAA undertakes action to inform DSAE, in all reasonable haste, of any significant changes to its military airworthiness system
6. The essential principle that recognition is a national responsibility is maintained, hence sovereign regulatory responsibility is not abdicated by issuance of this certificate.
