Date:

Sept 30th 2022

1. Recognition, in this case, is of an Authority by another Authority. To achieve the goal of regulating once and using the outcome many times, the recognition process guidelines detailed in EMAD R have been followed and confidence has been gained that **HNMAA's** airworthiness assurance and regulatory approach is acceptable to **DSAE**.
2. **HNMAA's** conduct of regulatory assurance is assessed as being at a standard by which the continuing airworthiness artefacts can be accepted by **DSAE** as described in the table here below.

Artefacts	Remarks
Approvals of maintenance or training organisations, and military aviation maintenance licences delivered by HNMAA can be accepted by the DSAE .	Approvals and licensing based on HNMAWR-145, 147, 66 only. HNMAWR is Hellenic National Military Airworthiness Regulation, based on European Military Airworthiness Requirement (EMAR), edited by the European Defence Agency.
Audits and surveillance for the approvals of maintenance and training organisations may be conducted jointly.	Development of the process for conducting joint audits and surveillance is required.

3. This Recognition Certificate is valid until **September 2026**.
4. This Recognition Certificate will be reviewed for the first time at least 6 months before the end date of its validity unless any significant changes (Step 17 of EMAD R Edition 2.0 refers) to the Authorities occurs before that date.
5. Validity is based on the condition that **HNMAA** undertakes action to inform **DSAE**, in all reasonable haste, of any significant changes to its military airworthiness system.
6. The essential principle that recognition is a national responsibility is maintained, hence sovereign regulatory responsibility is not abdicated by issuance of this certificate.
